TERMS AND CONDITIONS

All Evaluations

World Education Services' evaluation reports reflect only formal educational credentials. Evaluations are based upon the best information and resources available to professional evaluators in the United States.

This evaluation report is provided under the following terms and conditions.

Grades and Grade Point Average

WES uses an alphabetic system to identify grades. The standard WES conversion of letter grades into a numerical scale/quality points is as follows:

<u>Grade</u>	<u>Quality Points</u>
A	4.00
A-	3.67
B+	3.33
B	3.00
B-	2.67
C+	2.33
C	2.00
C-	1.67
D	1.00
F	0

Cumulative Grade Point Average (GPA) is determined by multiplying the credits per course by the quality points for the grade for that course, repeating this procedure for each course, totaling the credit hour quality points thus obtained, and dividing by the total number of credits.

"Pass" is not included in the Cumulative Grade Point Average. For study completed at the undergraduate level, it corresponds to at least a "C" in the United States. For graduate and professional study, it corresponds to at least a "B".

Failing grades for courses successfully repeated are not calculated in the GPA.

Credit Recognition and Transfer

When provided, the course and credit analysis represents a breakdown of post-secondary study in terms of U.S. semester credits and grade equivalents. The number of credits accepted for transfer to a degree program or towards a professional license in the United States may vary from those listed in this report in accordance with the policies of the receiving educational institution or professional agency in the United States.

Evaluations for the Professions

World Education Services does not evaluate professional ability. Only authorities qualified in the profession can determine whether the individual meets specific requirements in licensing or for professional practice.

Professional Experience

World Education Services does not convert professional experience into educational equivalents or include it in the evaluation report.

If you have any questions or comments about this evaluation report, please contact:
